

MILANO
2018
AUGUST 3RD TO 7TH

The 18th International Conference on Geometry and Graphics

(TYPE HERE YOUR TITLE IN CAPITALS, IN TWO OR THREE LINES)
INSTRUCTIONS FOR FORMATTING POSTERS FOR THE 18TH INTERNATIONAL CONFERENCE ON GEOMETRY AND GRAPHICS

©2018 ISGG

Luigi COCCHIARELLA¹, Damiano IACOBONE¹, and Graziano M. VALENTI²

¹Politecnico di Milano, Italy, ²Università Degli Studi di Roma La Sapienza, Italy

TOPIC / SUBTOPIC: (i.e.) Theoretical Graphics and Geometry / Computer Aided Geometric Design

KEYWORDS: (3 to 6) Instructions for formatting Posters, ICGG 2018, Geometry, Graphics

Write your text in this box, paying attention to the formatting rules. This file presents the instructions for formatting Posters to be submitted to the 18th International Conference on Geometry and Graphics (ICGG 2018). These instructions are to be followed to the letter so that all the Posters in the proceedings have a consistent appearance. This poster itself is formatted according to the formatting rules. Use this file as a model and edition template. Do not change this template. This document is supplied as a Microsoft Power Point file containing preformatted styles. We strongly suggest authors replace the text of this file with their own, preserving the formatting. Since the text is short, paragraphs might not be necessary, however, if you are planning to have them, do it as in this template: space above title, title in italic, no space below the title. This box can be about 16x74cm in total. In order to set it use the four black small squared in the corners as reference points.

Title, author(s) data and graphic composition

Title of the poster and Author(s)' name(s) will be located in the banners above, type the required info in the preset boxes. Names of the Authors are in given order: name of birth, initial, surname, with SURNAME in capital letters. Figures and Tables will be placed in the white field below. There are not special instructions for the graphics feature of figures and tables in the Poster, only be sure that the overall composition is appropriate to topics and procedures presented, and that the graphic impact is clear. Also make sure your images are not too small (especially if they are graphically detailed) or too big (especially if they are graphically poor). Captions and comments can be added, according to the samples above. Unlike a Full Paper, in a Poster the visual effect is dominant, therefore short and concise comments aside the images are strongly suggested. Use the recommended font and size in each section of the poster.

Formattig text in this box

This paragraph is set in one column the distance between the columns is 2 cm. Vertical alignment is to upper side of the box, starting with a space above the first word. Font is Verdana, 16pt. Space between the lines is exactly 24pt. Mind that this box contains in total about 3.000 characters, including spaces. Do not place images in this part. Short list of cited references [1] can be displayed.

INSTRUCTIONS

IMPORTANT: this template is for Microsoft Power Point users only:
if you use Adobe Photoshop download the “psd” template

FORMATTING THE TITLE OF THE POSTER:
ALL CAPITALS
Alignment: LEFT
replace the title above with your own title (SAME COLOR)
Font: Verdana regular 44pt, spacing 52pt

FORMATTING AUTHORS’ NAMES (first line) AND AFFILIATIONS (below the authors’ names):
Alignment: CENTRE
Replace the text above with your own text (SAME COLOR)
Font: Verdana 18pt, spacing 30pt (bold for **Name SURNAME**, regular for Affiliation)

FORMATTING TOPIC / SUBTOPIC, and KEYWORDS (keep the words “TOPIC / SUBTOPIC” and “KEYWORDS”):
Alignment: LEFT, same as the title of the Poster
Replace the text above with your own text (COLOR WHITE)
Font: Verdana regular 18pt, spacing 30pt

FORMATTING THE TEXT IN THE YELLOW BOX ABOVE:
Alignment: LEFT
Replace the text above with your own text (COLOR BLACK)
Font: Verdana 16pt regular, spacing 24pt

COMPOSE YOUR IMAGES IN THIS GRAPHIC FIELD

There are no specific guidelines for it,
ony take a look at the recommendations
for the graphic composition
in the yellow box above

Use all this white field,
no margins are required

FORMATTING CAPTIONS (HEADLINES AND TEXT)

Headlines of captions should be like this
Font: Verdana 16pt bold, spacing 24pt

Text (if any) under the headlines of a caption should be like this
Alignment of the text (left or right), color, as well as position of the caption and length of the text, will depend on your needs; of course, since in a Poster the visual impact is dominant, it is better to avoid to use too long paragraphs here
Font: Verdana 16pt regular, spacing 24pt

KEEP CLEAN THE YELLOW FOOTER BELOW
